Pro Bono Publico!

IF YOU LOVE YOUR COUNTRY, encourage Home Productions. Why will you send abroad for wretchedly spurious articles when you can have the good and true and beautiful of Oregon material and Oregon workmanship close at your very doors?

Why impoverish your country and its mechanics by the calculations of Prejudice, or by parsimonious misdirection?

Other articles, too numerous to mention, either on hand or made to order.

The superscribers would modestly infer to the most gracious public of the State of Oregon that they would gladly exchange any or all of the above articles for "READY MONEY," or any other article of commerce that will by the conveyance give pleasurable sensations to the high contracting parties.

The lifespring of trade, "READY CASH,"
No matter in which way we view it,
Enables us our all to dash
And therefore we mean to stick to it.

Billiard and Ten Pin Balls turned to the most exact spherical conformation.

Various kinds of turning executed with the beauty of true taste, and to the truth of true order.

From the Mines

A very intelligent gentleman now in the Boise country, who knows as much about mining affairs as any one, writes us from Placerville on the 12th July. We publish a portion of his letter:

I only arrived here yesterday, and of course cannot give you many items of news. I believe this to be the richest mining country I ever saw—gold everywhere. Water is scarce now, and mining about at an end here for this season, but every one has money, and all appear contended and happy. Every man has a knife and six shooter slung to his back. The morning we arrived one man was killed and another shot at.

Ike Hunt and myself were sleepy, having ridden all night to avoid the heat, and we rented a brick oven, the only safe place in which to take a nap. The whole surface of the ground in the knolls and among the trees prospects well. The only drawback is the want of water. A ditch can be brought from the Payette, 28 miles, which will supply the country. Rich gold bearing quartz is found in all directions.

I am going to Bannock to-morrow. Mr. Carter arrived this morning, having been employed to survey a road from the Dalles. If we live three years I think we will see more mineral wealth within a circuit of 50 miles around here than the whole of California will exhibit.

Equal to Boise.—One of the most valuable veins of petroleum yet discovered was lately struck on the Farrell farm, Oil creek, Venango county, Pennsylvania. The well commenced flowing on Saturday last, the oil spouting to the heighth of fifty feet, with a roar like a hurricane, and escaping at the rate of two thousand barrels per day. A stop cock was got on after much trouble, and the flow can now be regulated to suit the demand. Another flowing well in the vicinity was so affected by the opening of the new well that its yield decreased over three hundred barrels per day. The Farrell well, which is about 450 feet deep, was at last accounts flowing steadily at the rate of 1,200 barrels a day.—This, even at the moderate prices now ruling at the wells, would yield the owners $3,000 a day.

Land Office Business.—Messrs. Brown and Fletcher, the Register and Receiver of the Columbia River District, have recently opened their office in Walla Walla for the convenience of the settlers in that vicinity. The *Statesman* says, "that they have completed their official duties, and that in their personal intercourse and dealings with our farmers and others with whom they have had official business, they have given universal satisfaction, and will go away accompanied with the good wishes of the community in general."

Curious Will.—A will found at Port Royal, recently, by some Union soldiers there, presents a fact not often set forth out of Dixie. The testator, John Cooper, of Caroline county, Va., gives his property to his wife and daughter, but to do this he is compelled to emancipate his wife, who was his slave, and thereby—according to aristocratic Virginia practice—legitimatize his bastard daughter, born of the aforesaid slave. Will some of our Copperhead Democrats please favor us with a lecture on *amalgamation*?

We observe a greater willingness to have the negroes do the fighting in this war, now that a tolerably rigid and just conscription law is about to come into operation. Indeed, we frequently hear those who a year ago were horrified at the idea of arming the blacks, argue the other side of the question with considerable unction. The conscription is a forcible reasoner.

California has this year a wool crop of eight million pounds, against six millions last year and three millions in 1861, and the increase in other States has been almost as rapid. The new domestic wool clip will reach a hundred million pounds. If the South will not let us have cotton we can grow wool enough to clothe ourselves, and in a few years to clothe a half dozen other nations.

Vallandigham.—The fusion Democrats of Placer, cheered for Vallandigham in their Convention, hearing of which, says the *Courier*, a German remarked:

Vallandigham isht ein schwartzkopf—und his crimes shmelt worse O himmel than schweitzerkase. He was a Herr Gott's himmel sacrement und tausend donner wetter. Das wast alles.

He was right, too. Exactly our opinion.

Leaving his Country for his Country's Good.—The papers announce that "Jesse D. Bright is about to make a tour through Europe." If he remains there long enough he may meet his friend Jeff. Davis, who will also, before long, make a tour through Europe.

In the Supreme Court of New York, G. W. Jones, late minister to New Granada, sues Wm. H. Seward for alleged arbitrary arrest, laying his damages at $50,000.

Union no Terms.—Gov. Brown, of Georgia, has been asked by a number of citizens to become a candidate for election. The request has been published. Gov. Brown, in his answer, says:

Having entered into this revolution in defense of the doctrine of State rights and State sovereignty, we would be untrue to ourselves and our posterity were we to permit these great fundamental principles to be disregarded or trampled under foot at any time by any one, no matter what would be his position. While, however, we should restrain the Confederate government within the limits assigned by the constitution, we should at all times sustain it with the last dollar and the last man, if need be, in the just exercise of its rightful constitutional jurisdiction. And we could never, under any circumstances, consent to a reconstruction under the old Union, or to any political Union with the Abolition States, upon any terms whatever. Nor should we ever lay down our arms till the independence of these Confederate States is unconditionally recognized.

These are the gentlemen with whom the copperheads would treat for reunion.

Jeff. Davis cannot be considered rash in his statements of moral truth. In his letter to the schoolmasters in South Carolina, he makes the following startling declaration for the illumination of the Southern mind:

"As a general proposition, it may I think be safely asserted that all true greatness rests upon virtue, and that religion is in a people the source and support of virtue."

That reminds us of the bold declaration of one or two preachers. Some years ago Rev. Mr. [illegible], of Massachusetts, opened a sermon by a very slow and impressive utterance of the following amazing sentence: "Without the virtue of piety a man can hardly be called a Christian."

A somewhat noted preacher in or near Boston astonished his admiring hearers by this most solemn announcement: "As a general rule, my brethren, I repeat it, there is generally a larger number of people in great cities than in small towns."

Jeff. Davis must have prepared himself by his moralizing by a diligent study of such models.—*Providence Journal.*

From Washington.—The *Bulletin* correspondent says, "recently the President was not in the best humor, though I cannot pretend to say with whom he was provoked. A letter was placed in his hands from an officer on one of the iron clads at North Edisto, dated June 6th. It stated that his ship had been lying there for six weeks, burning large amounts of coal, but performing no kind of duty. The health of the 450 seamen on board his and other vessels of the same class was very poor, with no hospital accommodations for the sick, the number of which daily increased. The bottoms of these vessels were so covered with seaweed and barnacles that it required all the power of their engines to resist the tide. The thermometer on board ranged from 101 to 170. The President handed the letter to Secretary Welles, with no other remark than that he desired a special report to be made to him of the facts which were involved in that case.

"The response of President Lincoln to the Albany Committee has elicited warm approbation from the several members of the diplomatic corps, for its perspicuity, force and admirable temper. No State paper issued since the commencement of the war could have a better effect upon the public mind, showing as it does the solicitous desire of the Executive not to infringe upon the rights of the citizen while exercising anomalous powers thrust upon it by the exigencies of the times."

Maxims of the Confederate Democracy.—Resistance to the Government is obedience to God.

"Blessed are the peace makers" of the North, who assist the South in tearing the Government to pieces.

Infinite and infernal "vigilance is the price of" office in the Democratic party.

"Free speech, free press" and free liquor, are necessary to the success of the glorious Democracy.

Devoted to the destruction of the Union from the beginning, we will not falter now in this the hour of our sorest trial.

The Constitution, as we intend to amend it, shall be our guide.

If the Democracy were in power, the President and his Cabinet would constitute a Republican Government.

President Lincoln has always been an Abolitionist, and the people of the North will not fight.

When good Democrats die, their bodies go to Heaven and their souls to Jeff. Davis.

Privileges of a Free Press.—At the meeting of editors of all parties, from the *Tribune* to the *Express*, held in New York, resolutions were adopted to the following effect:

That we recognize and affirm the duty of fidelity to the constitution, government and laws of our country; that treason and rebellion are crimes; that while we emphatically disclaim and deny any right as inhering in journalists to incite, advocate, abet, uphold or justify treason or rebellion, we respectfully but firmly assert the right of the press to criticise freely and fearlessly the acts of those charged with the administration of the government, and of their civil and military subordinates, and that any limitations of this right, created by the necessities of war, should be confined to localities where hostilities exist or are immediately threatened.

Brigham vs. General Connor.—General Connor and Brigham Young have had quite a sharp spat in words. The Territorial *Enterprise* has the following:

Brigham sent a committee to wait on the General, and represent his command at Camp Douglas as a nuisance which he begged might be removed.

"Did Brigham Young order you to tell me that?"

"Yes," said the lackeys.

"Then you tell him for me," replied the General, "that if he sends me any more such messages, I will break up this establishment here, which seems to cause him so much trouble, and go and camp in his harem."

Brigham's rejoinder has not yet been filed.

A Striking Parallel.—A Madrid paper, in giving the texts of several manuscript prayers to Mahomet, which have been found on the persons of Moors, states that one of them contains 5,000 times the words—"God is merciful," repeated over and over again without any other sentence whatever. These Moors are wonderfully like the rebels and their Democratic sympathizers, whose whole argument against the Government they are trying to destroy, consists of the word "Abolitionism," repeated over and over again without any other idea whatever.

Additional News.

We have no dispatch this morning, and are compelled to take from California papers the latest intelligence.

New York, July 15th.

The rioters to-day burned several houses on [illegible] Avenue and killed some negroes.

The riot in Third Avenue threatens to be extensive. The police and military are fully engaged—the latter firing [illegible] the mob and occasionally using the bayonet.

At three this afternoon the mob entered an alley on the rear of Twenty-eighth street and Second Avenue, in which fifteen or twenty negro families resided. They broke open the houses and found some unfortunates, who were badly beaten.

In a lane running from Twenty-seventh street also cruelties of the worst kind were perpetrated on the unfortunate blacks.

The crowd also surrounded the gas works at the foot of Eighteenth street, smashed the windows, and severely beat several persons. The military, however, soon obtained possession of the works and drove the assailants off.

The Hudson River Railroad Company commenced relaying the track, with gunboats in the river to protect the laborers from the mob.

A collision occurred on Forty-fourth street this morning, in which three soldiers are reported killed.

Mayor Opdyke recommends an immediate proclamation of martial law in New York. Seymour opposes it.

This afternoon the mob again collected on Thirty-second street near where a negro was hanging. As they refused to disperse, a howitzer was trained upon them, loaded with canister. The first discharge killed about six of them, and more discharges increased the number to twenty-two, when the villains fled.

Two negroes were killed this afternoon—one on Pier No. 4, the other in Washington street. The colored people are fleeing the city in all directions.

We have some particulars of a fight in Thirty-seventh street to-day. It seems that an attack on the Seventh Avenue arsenal was to be made. A detachment of 250 men with fifty-two [illegible] under [illegible] proceeded to the corner of Thirty-fifth street and Broadway. From Sixth Avenue to Seventh Avenue was crowded with men, women and children. Fifteen minutes were given to the crowd to clear the street. No one stirred. At the expiration of the time allowed, the artillery loaded with canister, opened fire. Five rounds were fired. A good many were hurt, but it is not known how many. The rioters proceeded to Thirty-third street and erected a barricade of wagons across that street and Sixth Avenue. Some hundreds of negro women and children were allowed to escape, but none of the colored men. The buildings occupied by colored people were set on fire with the intention of burning the colored men in them. At last accounts the military had arrived at the scene and a fight probably occurred.

Chicago, July 16.—From Tuesday's (14th) New York *Times* we take the following: The inauguration of the draft on Saturday, July 11th, was characterized by so much ordinariness as well nigh to dispel the forebodings of violence which were entertained in connection with its enforcement in this city. The instigators of the riot seemed to be aware that the authorities did not expect resistance until after the draft was completed, and it is abundantly manifest that the whole affair was concocted on Sunday, July 12th, by a few wire pullers, who, after they saw the ball fairly in motion, prudently kept in the back ground. At nine o'clock on Monday, July 13th, some laborers employed at the railroad and iron foundries in the eastern part of the city, formed a procession in the Twenty Second Ward, visited the different workshops in the upper Wards, and compelled the laborers to cease work.—As the crowd augmented, the disorderly demonstrations became more formidable. The number of men who first started on the career of violence did not probably exceed three score. By the time of their arrival at the corner of Third avenue and Forty Sixth street they had increased to five hundred. When the drafting commenced, there were probably two hundred persons present in the room who freely made use of excited and threatening language, and joined the rioters almost as soon as the attack on the building commenced. Clubs, stones, and other missiles were used. Following these missiles the mob rushed furiously into the office and seized the books and papers; after which the drafting officers were set upon with clubs and had to make a hasty exit through the rear. The destruction of the materials was hardly accomplished when the building was fired—this action being received with vociferous shouts and other indications of delight. Notwithstanding the fact that the upper part of the building was occupied by many women and children, the cowardly wretches threw stones through the windows. Fearing that these poor people would either be burned to death or maimed by these projectiles, Deputy Provost Marshal Vanderpool requested the rioters to withdraw, but was immediately set upon and badly beaten.—Meanwhile the fire spread rapidly. [Here the dispatch abruptly closed.]

European Intelligence.

New York.—The *Persia*, from Liverpool July 4th, and Queenstown July 5th, has arrived.

Warlike rumors continued to come to Paris. It was rumored that Russia assents to the essential points of the propositions of the three Powers regarding Poland, but the answer had not been received. The insurrection continues active.

Change of Front.—Governor Seymour, of New York, after all his copperhead utterances against coercion, and his expressions of horror at the tyranny of this Administration, finds himself compelled, by the practical results of his former teachings, to maintain his own authority as Governor and the authority of the National Administration, by a resort to cold steel and lead. His ideas of the liberties of the citizen, which were once so liberal as to justify even the slaveholders' rebellion, and to condemn as unconstitutional the efforts made by the Government to subdue it, must be modified considerably when he sees them asserted in flames and blood by the thieving and murderous scum of the metropolis. He had to change front or be a traitor. In like manner Thomas Jefferson promulgated ultra views of State Rights and against coercion by the General Government while a private citizen, but when he became President and had Burr's conspiracy put down, he believed in asserting the supremacy of his office and talked about the necessity of the Government showing its teeth once in a while.—Gov. Seymour will henceforth have a better appreciation of the difficulties of Mr. Lincoln's position, and more consideration for that patriotic, honest and much abused executive.—*Appeal.*

A Frightened Copperhead.—A blustering Copperhead journal is trembling in its [illegible] boots from fear that the negroes "may soon find means to subjugate us to their domination." Oh, the nigger! the terrible nigger! the subjugating nigger! If he should capture the Copperheads, as they seem to fear he will, what a stomach full of bad copper and worse verdigris the African will have to [illegible].—*Call.*

The Peace Hypocrites.—Speaking of the Copperhead riot in New York, the Sacramento *Union* says:

This resistance by force to the Conscription Law illustrates the beauties of Peace Democracy. It is peace for the rebels in the South and war for loyal men in the North. It also illustrates too the respect which Peace Democrats entertain for the laws of the land. Their leaders often boast that the Democratic is the party of law and order—that Democrats always stand by the laws and the Government. Of their disposition to obey laws not made by their party, we may judge from the scenes which have degraded New York city for the past few days.

Hon. Sidney Edgerton, Chief Justice appointed for Idaho Territory, passed Julesburg a few days ago, accompanied by his family, and [illegible] for a four year residence at Lewiston or Bannock. The party don't put on airs like some coming to this far western world, but like sensible, substantial folks, travel with ox teams well laden with staples and luxuries for the full trip.—*Rocky Mountain News.*

Messrs. A. J. Scovill & Co.—Gents: This is to certify that I have had a severe attack of Pleurisy. The pain was so severe that it would at times ALMOST TAKE MY LIFE! My physician did but little for me; that is, what he did gave me no relief. I commenced using DR. MOTT'S LIVER PILLS, also applying the hot poultice to the part affected, as directed, which reduced the inflammation, and the pain began to get better, and by the use of two or three doses of the Pills I found myself entirely relieved of the attack. I am constitutionally predisposed to this disease. I have always kept them on hand, as I find them the very best Pills in the world for that disease, also a [illegible] [illegible] SAMUEL PARKER.

Forebodings.—Owing to the non arri[illegible] telegraphic intelligence from San Fran[illegible] via Yreka and Salem, for the past two [illegible] many profound and prophetic citizens of [illegible] land are thereby plunged deeply into [illegible] choly prognostications of defeat and di[illegible] to our arms. Sagely and mysteriousl[illegible] the aforesaid wiseacres slowly shake [illegible] empty heads, and darkly hint at the [illegible] of Meade by Lee or the accomplishme[illegible] something dreadful by the riotous mo[illegible] New York, Boston, or elsewhere. O[illegible] there are who ominously predict the ca[illegible] of Cincinnati by the guerrilla chief, Mo[illegible] and the plunder of that city by his wild [illegible] rapacious followers. These ridiculous ru[illegible] are doubtless principally circulated by [illegible] whose wishes are parents to their thou[illegible] We place the most implicit reliance [illegible] these rumors. We have no doubt tha[illegible] has defeated Meade—over the left, we [illegible] no doubt that the plundering mobs [illegible] done "something"—they have done th[illegible] selves brown; nor have we any doubt [illegible] Morgan is in Cincinnati—as a prisoner [illegible] course it is well known that detention [illegible] news are of frequent and unavoidable oc[illegible] rence, and our citizens will no doubt v[illegible] these rumors at their true value—nothing

Quick Work.—The entire length of t[illegible] occupied in demolishing the old Columb[illegible] Hotel and surrounding buildings was [illegible] six days. The work of tearing down c[illegible] menced on the 15th inst., and on the even[illegible] of the 22d not a stick remained standi[illegible] This expeditious "wiping out" was perfo[illegible] ed under the supervision of Mr. Haydon, [illegible] of Salem, who has also the contract for [illegible] erection of the new buildings.

Hot.—Yesterday was almost as warm [illegible] any day during the season, the thermo[illegible] eter indicating 92° in the shade and 118° [illegible] the sun. Had it not been for the prevale[illegible] of a slight westerly breeze, the day wo[illegible] have been oppressively hot. As it was co[illegible] ing retreats were highly appreciated, a[illegible] violent locomotion at a heavy discount.

Arrived.—The steamer Wilson G. H[illegible] arrived from the Dalles last evening. S[illegible] brought the usual number of passengers, [illegible] very little gold, principally in private han[illegible]

Recorder's Court.—Hop Wo was broug[illegible] before the recorder charged with depositi[illegible] filth and nuisance in the street, in front of [illegible] establishment, No. 118 Morrison street, [illegible] violation of ordinance No. 142. The defen[illegible] ant pleaded guilty, and was fined $5 a[illegible] costs. This was the only business transact[illegible] yesterday, but we understand there is so[illegible] important cases on the docket for trial at ni[illegible] o'clock this morning.

Erratum.—We made a mistake in yeste[illegible] day's publication, in our report of the Fi[illegible] District School meeting. In the table of [illegible] ceipts it was stated that $1,702 07 had be[illegible] received from Mr. W. P. Doland, coun[illegible] treasurer. The correct amount received w[illegible] $1,612 07.

Last Time.—"Uncle Tom's Cabin" w[illegible] performed for the last time on Thursd[illegible] night. On that occasion Mrs. Waldron ent[illegible] ed her new character of "Topsy" in the mo[illegible] spirited and satisfactory manner, and create[illegible] many bursts of merriment with her humoro[illegible] antics. "Aunt Ophelia" was well rendere[illegible] by Miss Luby. The manager purposes pr[illegible] ducing the popular drama of the "Rag pick[illegible] of Paris," on Saturday night.

Right Talk.—When we became a Dem[illegible] crat, before we ever voted, we did not take [illegible] oath to follow that party to Dixie, hell or a[illegible] place else away from fealty to our Gover[illegible] ment.—*Oroville Union.*

That's the talk! Thousands of true an[illegible] loyal men, who never voted any but the Dem[illegible] ocratic ticket in their lives, are now standin[illegible] by the Administration and the Governmen[illegible] because Democracy as it stands is now noth[illegible] ing else than rank treason. Its very name to[illegible] day "smells unto Heaven," the quintessenc[illegible] of disloyalty, ingratitude, toryism, and a[illegible] that can degrade a man. The man who do[illegible] not want to be disgraced the balance of hi[illegible] life, should discard the name of Democrat i[illegible] 1863. There is hardly a traitor in the Sout[illegible]—and there isn't a rebel sympathizer in a[illegible] California, who does not call himself a Demo[illegible] crat! When traitors claim the name, hones[illegible] and true men should adopt another. Tru[illegible] Democracy is one thing—treason under th[illegible] garb "Democracy" is another. Intelligen[illegible] people can discriminate; ignorance and big[illegible] otry never.—*Placer Courier.*

Personal Responsibility.—Individual men are very unreliable, but companies of me[illegible] are still more so. Who can predict with cer[illegible] tainty the ruling of a court, or the verdict o[illegible] a jury? In our General Conference of 184[illegible] six men with a bishop at their head divide[illegible] the M. E. Church. It were perhaps easy t[illegible] name six men that attended the Louisvill[illegible] Convention who might have prevented th[illegible] result. "You may count on your fingers," says a well known orator, "the men who too[illegible] the South into rebellion, and who knows bu[illegible] there are ten men who could bring her back," though it is a sad reflection that in this sinfu[illegible] world it is easier to destroy than to save, and that men are more inclined to the former tha[illegible] the latter.—*N. Y. Christian Advocate.*

A bachelor editor, sensitive in relation t[illegible] his rights, objects to taking a wife through fear that if he should have a baby (his wife he means,) his contemporaries, who habitu[illegible] ally copy without credit, would refuse to giv[illegible] him credit for the baby.

EXPECTORANT

AND SANATIVE PILLS

HAVE BEEN BEFORE THE PUBLIC SO LONG, and found such general favor in every section of country where they have been introduced, that there is no place on the [illegible] where they have not been sold, that it would [illegible] superfluous at this time to direct attention to [illegible] the columns of the press. Yet it is due to [illegible] especially to that numerous class [illegible] the changeable climate of the Pacific coast, suffer

Diseases of the Lungs & Throat,

inducing and ending in CONSUMPTION, many of whom have not yet tried this remedy, that they should be allowed to read some of the cases where its influence has been useful in remedying complaints from which they are suffering. The EXPECTORANT

Operates immediately upon the Disease,

SURELY AND SPEEDILY ERADICATING IT,

while the SANATIVE PILLS, by preserving regularity in the bowels, and giving a healthy tone to the other internal organs, aid and assist the perfect operation of the former.

Attention is asked to the following Certificates, selected at random from the mass in the possession of the proprietors.

UPPER UWCHLAN, Chester Co., Pa., Sept 15, 1858.

DR. D. JAYNE—Having been afflicted with ASTHMA and BRONCHITIS, and having the advice of some of the most eminent physicians, whose skillful treatment of my case did not prove to be of any avail, I obtained no relief for my suffering until I commenced the use of your EXPECTORANT. After taking it for about three months, I was entirely cured. NATHAN PENNYPACKER.

ASTORIA, Long Island, Jan 16, 1860.

L. W. TINELLI, Esq., New York—SIR: As you well know I have been afflicted with BRONCHITIS, accompanied with the most painful tightness of the chest, and great difficulty in breathing for nearly two months, and I had almost lost all confidence in the power of medical science, when at your friendly suggestion, I began the well known (but not enough known) "EXPECTORANT" of Dr. Jayne, of Philadelphia. Three or four days after having commenced to take it, my cough had nearly subsided, the expectoration was easy and the breathing quite free.

I am now quite another man, and my general health has not of late been better.

I remain, my dear Tinelli, with esteem, your servant and friend. J. B. MONTE.

WINFIELD, Tuscarawas Co., O., May 31, 1860.

DR. D. JAYNE—Dear Sir: One bottle of your Expectorant cured my daughter of the LUNG FEVER, after having been beyond the hopes of recovery. During the attack she had a number of convulsions. She is now perfectly well. J. H. COFFMAN.

BURLINGTON, Bradford Co., Pa., July 23, 1863.

DR. D. JAYNE—Dear Sir: My son was for one and a half years afflicted with a disease resembling CONSUMPTION. For two years he was not able to labor. He was finally induced to try your EXPECTORANT and PILLS, and after taking 10 bottles and some PILLS, was completely cured, and is now able to labor every day. JOHN HENRY.

We would add to the above that we sold to Mr Henry the medicine for his son, and know that the statement is true.

DR. BAKER'S

PAIN PANACEA.

Is composed entirely of healing gums, and vegetable oils and herbs. It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any, however delicate, to be injured by it in the least. I will continue to ask the afflicted, who have not used it, to try it for the following diseases. If they are not satisfied with its healing properties, the money will be cheerfully returned by the agent where the medicine is for sale.

If you have pain in the stomach or bowels, try a dose of Pain Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound; bathe it well with the Pain Panacea four times a day. It will relieve the pain, and take out all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Pain Panacea freely, and take a dose of it internally morning, noon and night; it will not only cure the pain but will remove the cause of the disease.

If you have the Dyspepsia, and your food distresses your stomach after eating, take a dose of Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat, apply the Pain Panacea, to the affected parts, and gargle the mouth or throat three or four times a day

If you have the Diarrhœa, or a relaxed state of the bowels, take a dose of Pain Panacea and they will soon be restored. If you have a painful swelling, bathe the parts freely, and you will soon relieve pain, and the swelling will be reduced.

If you have a severe tooth-ache, apply the Pain Panacea on a piece of cotton and bathe the gum at the same time; it will stop the pain instantly.

If you have a pain in the Breast, Side, Back or Kidneys, bathe parts affected morning and night; at the same time take a dose of the Panacea internally.

If a Mother has a caked breast, apply the Panacea as hot as it can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

If you have a wound, cut, or galls upon your horse, apply the Pain Panacea; it will take out all the inflammation and heal the sore in a short time.

SATURDAY MORNING, JULY 25, 1863.

The New York Riot.—The San Francisco papers are very bitterly hostile to the course pursued towards the turbulent spirits in New York, and, indeed, as will be seen from the annexed extracts, throw some blame upon the administration. The *Call* says the riots in New York are bad enough, goodness knows; but for right down evil, the riots themselves sink into insignificance in comparison with the temporizing course pursued by the authorities. The military who used blank cartridges, the governor who made the speech at the City Hall, the President who succumbed to the mob by uselessly ordering the draft to be stopped, are responsible for nine-tenths of the loss of life and property by the riots. Nothing has been more plainly established than the fact that to temporize in such cases is absolutely criminal. Whenever men set themselves in opposition to law and order, they are prepared for the worst, and nothing but the most prompt and severe measures can check them. President Lincoln and Governor Seymour have encouraged the rioters in New York, and held out a bid for similar proceedings elsewhere.

The *Alta*, in a similar strain, declares that the whole trouble is attributable to the mistaken leniency of the Administration. The disaffected have been allowed perfect liberty to prepare the way for the deplorable state of of affairs which now prevails. Three weeks ago Fernando Wood got up a mass meeting in New York. At it the war and the conscription were denounced, and peace upon any terms advocated. Fernando himself dared the government to send Burnside to command the department of New York. Next day he proceeded to Washington, and was closeted with the President for an hour. This he did, in all probability, to show his followers that the government dare not lay hands upon him. Instead of being honored with an interview with the President he ought then to have been seized and tried for treason. He was suffered, however, to return as he came, and the result is a serious outbreak among the class which he has for many years so sedulously cultivated, and over which he exercises the most unbounded sway.

Over and over again, during the past year, the deluded men, who are now rushing upon certain destruction in the streets of New York have been told that the war was being prosecuted for the purpose simply of enriching contractors at the expense of the bone and sinew of the country, and that it should and must be stopped. It is not wonderful, then, under such teachings, that they should be driven to desperation, the more especially if any unnecessary harshness has been practised by the enrolling officers. It is possible that when the smoke clears away, vengeance will fall upon many of those who have heretofore considered that crime could be committed by them with impunity. They may not have participated in the riots, but they are directly chargeable with getting them up. An example is needed, and if the administration is wise it will make it.

Irregularity of the Mails.

During the past few weeks we have been in constant receipt of communications from our subscribers and correspondents residing in the Sound district, complaining bitterly of the many annoyances to which they are subjected by the irregular delivery of the mails forwarded to that portion of the country from Portland. In another column we publish a letter from our traveling agent, dated "Olympia, W. T.," in which he states that complaints are general all along the route between Portland and Olympia, concerning the culpable mismanagement everywhere existing in the mail department of that section. In fact, chance, not system, appears to be controller-general of mail deliveries throughout the coast country of Washington Territory. We cannot account for this great neglect and carelessness displayed in so important a branch of the public service, but trust that the postal agent for the coast and others interested will promptly attend to this matter, and see that for the future the mails are forwarded and delivered with the promptness and regularity absolutely imperative to the successful conduct of postal arrangements.

We trust that in future we shall hear no further complaints of inconveniences arising from this cause.

Provost Marshal.—Capt. J. M. Keeler, Provost Marshal for Oregon, arrived here on on the last steamer, with his family. We understand that he is expected to make his headquarters at Salem, but we presume that sufficient discretion is allowed to him to justify his selection of such a position as he shall deem most suitable and conducive to the interests of the Government.

Col. J. Steinberger, commanding the Washington Territory Regiment of Volunteers, arrived here yesterday on his way to San Francisco. From all sources, we learn that the Colonel's discipline and care of his regiment are worthy of abundant praise.

Sad Casualty.—We regret to learn, from authentic sources of information, that Mr. Hamilton Campbell, an old resident of Oregon, whose family are still living with us, was recently murdered by a Mexican peon in Lower California or Mexico.

Sails To-day.—The *Brother Jonathan* will sail for San Francisco direct this evening at 6 o'clock.

The Oregon Lunatic Asylum.

Editor Oregonian:

It was our pleasure to visit this institution yesterday, the 23d ult., and go through it with the Superintendent, Dr. Loryea. This institution is deserving of more confidence and sympathy from the people of Oregon than it receives.

It has been the ambition of Dr. L. for several years, to have the management of an institution of this kind. He has therefore labored to acquaint himself with the peculiarities of his profession; and, considering his youthful age, has succeeded well. He is in correspondence with men of experience, both in Europe and America, and labors assiduously to know the best means of restoring these "*les miserables*" to health and happiness. He began this work three years ago, opening a small Hospital on the Levee, in Portland. The patients increased in number, and he was soon straitened for accommodations. He then gave a contract for a building, and in partnership with Dr. Hawthorne, put up a small but complete beginning for a State Asylum, to which they have added one wing, as the beginning of continuing their arrangements for a complete institution.

The location which they have chosen cannot be surpassed in Oregon, at least. They have a gentle eminence, at a convenient distance from the metropolis of the State, with perfect arrangement for supplying all the premises with the purest, coolest and best water the country affords. The premises are being tastefully ornamented—grading, fencing, building, and doing everything that seems necessary for the comfort of the large family of patients, numbering thirty-two and increasing.

I have heard, that the treatment of these subjects was "*inhuman*," "*unkind*," "*cruel*." But it certainly is not the case. Dr. Loryea resides in the Asylum, with his family, and studies the happiness of its inmates, and extends to them every kindness within his power. He walks and plays with them, amuses them with various games, and endeavors to keep them from brooding over their cares.

The institution is new—it was a private enterprise: was built and is owned by private persons, Drs. Hawthorne & Loryea, while they receive the patronage of the State insane as compensation by their labors.

This *institution has a claim* on the hearts of Oregonians, and especially those who have insane persons among them. This is their natural home. The Doctors are doing all that is necessary to provide for those who may be sent to them.

C. H. HALL.

Wallamet University—Commencement.

The usual commencement exercises of the Wallamet University occured last week. Of the examination and proficiency of the classes we do not propose to speak definitely; the visiting committee will see to that duty. The exercises were well attended. We saw persons present from various points of the Wallamet valley, as well as the citizens of Salem, thus evincing a higher interest in the cause of higher education. We have observed for several years, a growing attendance at these literary and scientific festivals, denoting an improvement in the tone of public sentiment in that direction. Twelve students graduated from the University this year, three with the degree of A. B., three young gentlemen as having completed the scientific and literary course, and six young ladies, as having completed the course prescribed for young ladies. The essays and orations of the graduating class were in excellent taste, both as to matter, style and manner. Mr. Holbrook's address to the students, at evening, was highly creditable to himself, and was listened to by a very large audience. We were glad to learn from the report of the agent, Rev. Mr. Waller, that the subscription to the building fund has reached upward of $14,000. This is well.—The institution is sadly in want of better accommodations. The trustees of the Wallamet University feel a commendable interest in making this institution second to none other on this coast.—*P. C. Advocate.*

We also copy from the *Advocate* the report of the Committee:

The Examination and Commencement Exercises of Wallamet University attracted a larger number of visitors this year, than usual, who were highly delighted with all the exercises. The examination began July 14th, and continued for two days. They were as thorough as the brief time allotted to them allowed; and it is due the faculty and students to say they were such as did honor to the institution. On Thursday, at 2 P. M., a crowded audience assembled to hear the young gentlemen, of the Senior Class make their graduating addresses, and the young ladies read their essays. In these exercises the audience enjoyed a rich intellectual feast; and we have no doubt but that these annual gatherings will be looked forward to with greater interest than heretofore. Francis H. Grubbs, T. H. Crawford and J. C. Grubbs, having completed the entire collegiate course of study, received the degree of A. B. Colin T. Finlayson, Alva W. M'Wharter and John B. Waldo, having finished the scientific course, received certificates. Miss Emily Belt, Miss Nellie Stipp, Miss Mary McGhie, Miss Margaretta Grubbs, Miss Angeline Robb and Miss Lucy A. M. Lee, having completed the entire course for young ladies, received their diplomas.

The address to the graduates, on Thursday evening, was delivered by A. Holbrook, Esq., of Portland. It was full of rich thought, and was listened to with great interest by a large audience. And though not announced as a part of the exercises, yet not the least interesting of them, we attended, was the party given by Judge Terry and his excellent lady, to the graduates on Friday evening. We heard many say that the exerises of this year was the beginning of better days for Wallamet University, and we indulge the hope that this may be the feeling, and the record each year at the return of these yearly greetings. May genuine progress be the motto of this institution.

An interesting fact connected with the graduates is, that eleven out of fourteen, leave—the friends of the Cross, the followers of Christ.

The committee would urge upon the friends of the Wallamet University, in Oregon, the importance of immediately providing for the reception of at least one hundred more students.

D. RUTLEDGE,
J. DILLON.

Good Hands for the Business.—An exchange, alluding to the fact that five New York regiments have been ordered home to crush the Copperhead insurrection, observes:

Those returning regiments will be more pleased to punish the New York Copperheads—the sneaks who remained at home attacking our brave soldiers in the rear—than to punish the rebels in arms, who take their lives in their hands and meet the foe face to face. Those New York Copperheads who are resisting the draft, and those who encouraged them to it, are worse than the rebels in arms—and the returning troops will so esteem them. If ordered to fire upon, they will show the wretched traitors no mercy. At any rate, the mob is likely to be taught a lesson that it will not forget during the present generation.

Letter from Olympia.

Olympia, W. T., July 19, 1863.

Editor Oregonian:

Since my first letter to you from this place I have had an opportunity of visiting several adjacent sections to this the capital of Washington Territory, and of seeing and conversing with a number of the people, principally farmers. It is perhaps unnecessary for me to say that the country bears the same familiar face as the town, with little or no improvement of special note. Within the past two years, the appearance of the town was an index to the country, as the town could not be expected to improve much unless the country around bore marks of prosperity and agricultural advancement.

About the same number of farms, and the same number of acres are cultivated as there was two or three years ago, and about the same proportion of grain will be harvested the present season. The crops look well, perhaps a little better than usual, owing to the unusual fall of rain which has served to keep the light sandy and gravelly soil of the prairies more moist, and hence more productive. In fact, the only improvement of the country and people noticeable, has been in an increase of the number and growth of the children. There is no country within Uncle Abe's dominions, I wot of, that can compare or compete with this portion of Washington Territory in numbers or healthful appearance and rapid growth of children; and to give you an example of the truth of this assertion, I visited a religious meeting last Sunday, at a school house on one of the prairies close by, and counted those in attendance, which resulted as follows: Fourteen adults, twenty-three children and youths under age, and seven dogs—and it was not a very good day for children either. The ratio of the population here will overreach the above proportion in children. The town has its full share of children and a little more than its share in dogs. My friend of the Dalles *Journal* would be at no loss for items here, as dog-fights are numerous, and frequently of paramount importance to owners and friends; fleas are in abundance, also, as per consequence.

A WEEK OF JUBILEE.

The past week has been one of constant, unabated and universal rejoicing among the loyal citizens of this section, over the glorious news of important victories gained by the Union forces over the rebels. The demonstration on Monday last, has been previously noticed; and on Thursday night, another manifestation of rejoicing was given in an illumination of the Washington Hotel, corner of Main and Second streets, which presented a very fine appearance on the outside. As upon the previous occasion, the street in front was filled with the citizens and sojourners of the place, and after quiet was somewhat restored, by stoning off the dogs and silencing the noisy siwashes, loud calls were made for Doctor Henry, who presently appeared upon the veranda, and delivered a characteristic speech to the promiscuous multitude, which seemed to be duly appreciated and frequently applauded. Short and appropriate speeches were also made by Judge Lander and Secretary Evans, and the rejoicings and congratulations were kept up until a late hour.

THE IRREGULAR MAILS AGAIN.

The people of the Sound country have much reason to grumble at the irregular and uncertain delivery of the mails. No mail matter from beyond Monticello has been received here since last Thursday, and it will not now probably arrive before Tuesday evening next—thus almost a week will intervene between mails. Such delays at this time are certainly very annoying, and a better and more certain regulation is justly demanded. Where the fault lies, I am not prepared to say; but the general impression prevails that it is between Portland and Monticello. The stage line from this place to Monticello, seems to make regular tri-weekly trips between points, but the mail matter fails to connect somewhere. The publishers of newspapers in Oregon, and especially the daily newspapers, should make it a point to look into this matter, as it is almost impossible to get subscribers with the present uncertain and irregular mails, and if there is no change for the better soon, even those who have subscribed heretofore will discontinue their papers. This irregular arrival of the newspapers has continued for some time past, and I find a general complaint at every point, which is unanswerable. Can anybody tell us where the postal agent of this coast is, or what he is doing?

The July Term of the District Court of the 1st Judicial District, Chief Justice Hewitt presiding, will commence in this place to-morrow morning. There is not a very large docket to clear at present known. The most important case will probably be the trial of Howe for the killing of Kendall, under an indictment for manslaughter. It is the general belief, however, that he will be acquitted.

For election returns I refer you to the last issue of the *Standard*, which contains all that has been heard from up to the present time.

U. E. H.

Mr. Seward to our English Friends.—Secretary Seward wrote an admirable reply to the London Emancipation Society which addressed to the President congratulations on the issuance of the great proclamation. He says that while the United States does not court foreign aid or sympathy, it has "a decent respect for the opinions of mankind," and is glad if those opinions applaud the course pursued by this government.

It is therefore with sincere satisfaction that the President learns that a large, respectable, and intelligent portion of the British people have, on unprompted investigation, arrived at the conclusion that the existing rebellion violates the principle of political justice, and that they *protest against it as a wrong to the human race, because it seeks to displace a government which is based on the rights of man, to make room for another which is to rest upon human bondage as its corner stone.* The President would not do justice to his habitual sentiments if he were to omit to express also the satisfaction with which he has found that, in all cases, those who are most just in their sentiments towards the United States are also the most earnest in their desire for the preservation of internal peace and friendship. This circumstance supplies to this government a new motive for adhering to its determined policy of peace, justice and friendship towards all nations, and especially towards Great Britain.

The Duty of the Hour.—The Boston *Post*, the most influential "Democratic" organ in New England, pithily says:—

The paramount duty of every loyal citizen is to do all in his power to defeat Lee, and to conquer and disperse his army. The honor of the country demands that the invader shall not only be repelled, but subdued. This is the great obligation resting upon the Administration; upon the army—upon the people. Let it be the chief aim and purpose of the Administration, of the army and of the people, until it is accomplished.

Who are the Rioters.—There are riots in New York, Illinois and Ohio! Who are the rioters? "Democrats," Peace Democrats, always and everywhere! The friends of Vallandigham take up arms to fight against the laws in Ohio and Illinois, while Fernando Wood's "peace men," the Bowery and Avenue rowdies, arm themselves to kill the officers of the law, and to commit arson and robbery in New York! The ignorant, excited masses, who have been taught to disregard law by these demagogues and traitors, rush into riot without a knowledge of its terrible effects upon themselves. The same result would be in this State under like circumstances. If Seymour had not been elected in New York this riot would not have occurred; but the poor deluded people, who permit others to think for them, and follow the advice of bad men, of men like Wood, who is a gambler, and has made all his money in lotteries, and who ought to be, and but for the law of limitation, would be in State prison—these poor dupes, we say, were told that if Seymour were elected Governor he would protect them in their opposition to the Government, and they believed it.

It remains to be seen whether it is one thing to be a candidate and another to be a Governor. If the Union candidate had been chosen in New York, there would have been peace in that city and State; and it behooves Seymour to put down rebellion. If McConnell had been elected in California, we, too, would ere this, have had riots in perhaps many places; and if Tod Robinson, A. C. Bradford, J. B. Weller, and their kind, obtain control here, they will force them upon us yet. This is but, the result—the inevitable result—of "Democratic" teachings.—*Bee.*

A Sharp Rebuke of Copperheads.—The Louisville *Journal*—an intensely conservative and pro-slavery, but not exactly rebel sheet—thus tartly rebukes the more reckless Copperheads:—

We look at the columns of the Philadelphia *Evening Journal*; we read the speeches of Peace factionists and the resolutions of their meetings, and while they have no word of commendation or encouragement for those who are engaged in fighting the battles of this war for the preservation of the Union, we find that they are equally and most significantly silent in condemnation and execration of the rebellion, and of those who are endeavoring to overthrow the Government. When such men propose an armistice, we can see but little difference between them and rebels in arms; the former would destroy the country by cunning strategy, and the latter by open assault. The patriot Democracy, to which we turn with hope and encouragement in these terrible trials, is grimly in favor of sustaining the Government in all those measures which it deems indispensably necessary to secure a peace by putting down the rebellion, and the more steadily and resolutely it adheres to this policy, the more extended will be the scope of its usefulness, and the more brilliant the successes which it must achieve before the public.

Rebels All.—The "Democracy" of the South is all in rebellion—not a Union man is in the rebel ranks save those forced into them—and not a Union man is among the Ohio or New York rioters! Let our people remember these facts and guard at the ballot box against similar occurrences here. If the Government had banished Vallandigham long ago, and curbed Wood, Rynders and their kind, this would not be; but it has been too lenient with traitors and their accomplices. As the Richmond *Enquirer* says, this is the assistance which the Democrats of the North give to rebellion.—*Bee.*

Consumption Curable.—DR. HALL'S BALSAM is better entitled to the confidence of CONSUMPTIVES than any remedy known; its peculiar action on the system excites the surprise and admiration of those who have tried various medicines without benefit. It is well worth a fair trial.

Storage.—The Fire-Proof Stone Warehouse, opposite Umatilla House, is the only building, "not made of wood," at the Dalles, where goods are taken on STORAGE. All other houses that take goods on storage are wooden buildings and in *exposed* parts of the town, liable to the risk of fire. The subscriber assures his patrons that his charges are but $1 50 per ton per month storage and although storage in wooden buildings is $1 00 per ton, yet the public cannot fail to perceive the advantages the subscriber possesses over other warehouses of this place.

Mokelumne Hill, August 30, 1860.
Having had occasion to employ several operators to construct a set of artificial teeth for me, but without having derived any benefit from them, I at last consulted Dr. W. KOEHLER, to whom I gave my case for another trial. He made me a full set of teeth, which I am now wearing with all the comfort and satisfaction desired, and I would recommend him to all in need of the services of a skillful Dentist. W. McFADDEN, M. Pleurisy Cured.
Madison, Ind., May 6th, 1859.
Messrs. A. L. Scovill & Co.—Gents: This is to certify that I have had a severe attack of Pleurisy. The pain was so severe, that it would, at times, ALMOST TAKE MY LIFE! My physician did but little for me; that is, what he did gave me no relief. I commenced using DR. MOTT'S LIVER PILLS, also applying the hot poultice to the part affected, as directed, which produced a perspiration, and the pain began to get better; and by the use of two or three doses of the Pills, I found myself entirely relieved of the attack. I am constitutionally predisposed to this disease. I have always kept them on hand, and I find them the very best Pills in the world for that disease, also family medicine. Yours truly, SAMUEL PARKER.

Afflicting.—A vigilant and lynx-

Theater.—This evening the beautiful
drama of the "Rag Picker of Paris" will be
performed at the Willamette Theater, for the
first time in this city, with a cast including
the entire company. This popular play, on
its first production in London and New York,
drew crowded and delighted audiences for
weeks together, and we doubt not that Mr.
Waldron will be equally successful in pleas
ing the citizens of Portland. Miss Mitchell
will appear as "Marie Didier," and Mr. G.
B. Waldron as "Father Jean, the rag pick-
er." The performances will be concluded by
the laughable burlesque of "The Door-
keeper."

What Has Come of It.—The rebellion was begun in the interests of slavery. The Vice President of the rebel Confederacy—the rebel Congress and all the leading rebel organs freely admit this; but whether they do this or not the intelligent world well knows that such and such only was its origin. And how have they succeeded? Where have they established slavery? On not a rood of territory before free! But they have succeeded in causing slavery to be abolished in the District of Columbia, in West Virginia, in the counties east of the Chesapeake Bay, in all of Missouri, whose example will soon be followed by Maryland and Delaware. And, aside from these, slavery is now crushed in Kentucky, Tennessee, Louisiana, Arkansas and Texas, and in no event can it flourish as it has done in the Gulf or Cotton States. And while the people of Missouri, by their own voluntary act declare for abolition—while slave-owners, planters, and men reared with the institution do this, and resolve that it has been the cause—the sole cause—of this most unholy rebellion, and should be wiped out, we have men here in California, innocent, prejudiced, unreasoning men, who never saw a slave in their life, or seeing, never owned one, crying out, parrot-like, and with no more sense, against the war, because they say it is waged for abolition.—*Bee.*

The Excitement in New Jersey.—The action of Gov. Parker, of New Jersey, who was elected as a sort of peace Democrat, and who has denounced the Government for carrying on an Abolition war, like the action of Governor Seymour, of New York, is a practical contradiction to the Copperhead declarations, that no more men or money will be given to carry on the war. Gov. Parker issued the following proclamation:—

Jerseymen—The State of Pennsylvania is invaded. A hostile army is now occupying and despoiling the towns of our sister State. She appeals to New Jersey, through her Governor, to aid in driving back the invading army. Let us respond to the call upon our patriotic State with unprecedented zeal and alacrity.

I therefore call upon the citizens of this State to meet and organize into companies and report to the Adjutant-General of the State, as soon as possible, to be organized into regiments as the militia of New Jersey, and press forward to the assistance of Pennsylvania in this emergency. The organization of these troops will be given in General Orders as soon as practicable.

WHAT HAS COME OF IT.—The rebellion was begun in the interests of slavery The Vice President of the rebel Confederacy—the rebel Congress and all the leading rebel organs freely admit this, but whether they do this or not the intelligent world well knows that such and such only was its origin And how have they succeeded? Where have they established slavery? On not a rood of territory before free! But they have succeeded in causing slavery to be abolished in the District of Columbia, in West Virginia, in the counties east of the Chesapeake Bay, in all of Missouri, whose example will soon be followed by Maryland and Delaware And, aside from these, slavery is now crushed in Kentucky, Tennessee, Louisiana, Arkansas and Texas, and in no event can it flourish as it has done in the Gulf or Cotton States. And while the people of Missouri, by their own voluntary act declare for abolition—while slave-owners planters, and men reared with the institution do this, and resolve that it has been the cause—the sole cause—of this most unholy rebellion, and should be wiped out, we have men here in California, innocent, prejudiced, unreasoning men, who never saw a slave in their life, or seeing, never owned one, crying out parrot-like, and with no more sense, against the war, because they say it is waged for abolition.—*Bee*

THE EXCITEMENT IN NEW JERSEY — The action of Gov Parker of New Jersey, who was elected as a sort of peace Democrat, and who has denounced the Government for carrying on an Abolition war, like the action of Governor Seymour, of New York is a practical contradiction to the Copperhead declarations, that no more men or money will be given to carry on the war Gov Parker issued the following proclamation: —

JERSEYMEN.—The State of Pennsylvania is invaded. A hostile army is now occupying and despoiling the towns of our sister State She appeals to New Jersey, through her Governor, to aid in driving back the invading army Let us respond to the call upon our patriotic State with unprecedented zeal and alacrity

I therefore call upon the citizens of this State to meet and organize into companies and report to the Adjutant General of the State, as soon as possible to be organized into regiments as the militia of New Jersey, and move forward to the assistance of Pennsylvania in this emergency The organization of these troops will be given in General Orders as soon as practicable.

A Good One

During Robert Heller's late brilliant engagement in Pittsburg, his fame and the excellence of his entertainments attracted all classes of people—the musical and refined, the millionaire and merchant prince, the mechanic and artisan, in fact every class, found its representatives within the walls of the theatre each night of his performance.

One evening a genuine specimen of the genus *verdant*, with his "gal" hanging on his arm, presented himself at the box office and demanded, "What's the tax to see the show?"

"Fifty cents," politely answered the ticket seller.

"Well, I guess I won't back down now, anyhow—here's your tin." Receiving his tickets, greeny entered, dragging the young lady by the hand.

The peculiarity and the oddity of their dress, soon made them "the observed of all observers."

Heller shortly after commenced his illustrations, which were wondered at with eyes and mouth wide open, by our rustic pair, he occasionally ejaculating in pretty loud tones, "Thunder," while she would exclaim, "Marcy me, ain't it queer?"

Feat after feat was presented and received with the plaudits of the audience until the introduction of the "Aerial Bell," a glass bell, suspended by a simple cord from the centre of the ceiling, and used in answering questions. After the usual performance with it, the question was asked, "Is there anybody in the house who wishes to get married?"

Bell—Yes.

"Pray tell in what part of the house are they?"

The bell immediately designated our rustics, who looked at one another as loving as a pair of doves, apparently, in their own happiness, oblivious to all surroundings.

"Are they engaged?"

Bell—"No."

"Will they ever be?"

Bell—"Yes."

"When will it take place?"

Bell—"To night."

During these questions and answers our rustic had been gradually opening himself like a knife, and now attained his full altitude, pulling up his shirt collar, and stirring up his crop of flax colored hair, breathless with joyful excitement.

"Say! say! mister! jest ax that thing if Nancy Jane and me is to get spliced together, and if it says yes, I'll give you the best hoss in Butler county, and call our first boy baby after you!"

Shouts, yells and laughter followed this announcement, and Nancy Jane, with face suffused with blushes, pulled at the tail of his coat and begged him in her most entreating way, "Now do, Ike, please sit down, won't you, now?"

Ike, however, too much elated with his good fortune and unmindful of all around, stretched his body as far as possible over the balustrade of the box, and in a voice audible in every corner of the house, cried out:

"Dod rod it, mister, do jest get that thing to say yes, and dog my cats if I don't call all my babies, boys and girls, after you, and lick anybody that says grass to you, to boot."

You can readily imagine the entertainment was short that night, and when over, the happy couple were made still happier, as a minister made them one for life, in the presence of Robert Heller.

Heavy Secesh Immigration.—A dispatch to the *Union*, dated Ruby Station, July 10th, says:

A large train of immigrants from Missouri, who talked very heavy secesh on the road, and abused the Government and the soldiers sent to protect the Overland Mail Company's coaches and stations, were this morning marched to Fort Ruby by a file of soldiers, and all took the oath of allegiance. The larger number had been soldiers in Price's army; some had served out their time, and others, it is said, had escaped through capture and wounds received in service on the rebel side. Two are yet held prisoners at the fort until orders from headquarters. The train numbered some 70 men, 250 head of loose stock, and 20 or 30 wagons. About 5,000 head of stock, mules and horses, have passed this point within the past ten days. The stock looks fine. There are very few families. The immigrants are generally young men, inquiring, "Is the conscription going on in California?"

A Conclusive Evidence.—Several years ago, and soon after the "anti-license law," came into force in the Green Mountain State, a traveler stopped at the hotel and asked for brandy.

"Don't keep it," said the landlord, "forbidden by the law to sell liquor of any kind."

"The deuce you are," retorted the stranger incredulously.

"Such is the fact," replied the host, "the house don't keep it."

"Then bring your own bottle," said the traveler, with decision, "you needn't pretend to me that you keep that face of yours in repair on water."

The landlord laughed heartily, and brought out the private bottle.

A Buncomb Fence.—Lawyer—"Now, Mr Andrews, was the fence you alluded to a good strong fence?"

Uncle Will—"Yes sir."

Lawyer—"Well, what sort of a fence was it?"

Uncle Will—"It was a buncomb fence, sir."

Lawyer, (thinking he had cornered the old gent)—"Now Squire, will you oblige the court by giving your definition of a buncomb fence?"

Uncle Will—"A buncomb fence, sir, is a fence that is bull strong, horse high, and pig tight."

Uncle Will was dismissed from the stand, and retired with flying colors.

Some one has beautifully said:—"The water that flows from a spring does not congeal in winter, and those sentiments of friendship which flow from the heart cannot be frozen by adversity."

Lawyers' mouths are like turnpike gates—never opened except for pay.

Some girls once sent a bachelor editor a boquet of tansy and wormwood. The wretched individual says he don't care—it's sweeter than matrimony anyhow. A perfect "bear."

Within the last year over eight million dollars in gold dust has been received at the New York Assay office from Pike's Peak.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK.

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, PA., May 1, 1856.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing. Yours with great respect,

ED. W. PREBLE, *Clerk of Steamer Clarion.*

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours,

ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov 15, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here. GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes of the Methodist Epis. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years.

VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects, and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the Cherry Pectoral saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.
